

### Established Patients

	Medical Decision Making	History	Exam
Level 2 99212	1 chronic problem – stable <b>OR</b> 1 self limited or minor problem No intervention required	HPI – Brief 1-3 elements ROS – 0 P/F/S - 0	Focused 1 body area/organ system
Level 3 99213	1 chronic problem– stable <b>OR</b> 2 self limited/ minor problems <b>OR</b> Acute, uncomp illness/injury Simple/SF intervention required	HPI – Brief 1-3 elements ROS – 1 P/F/S - 0	Expanded 2 – 4 body areas/organ systems
Level 4 99214	2 or more chronic problems <b>OR</b> New problem w/ Rx management or uncertain diagnosis; acute complicated injury Mild exacerbation of a problem	HPI – Extended 4 + elements <b>OR</b> status of 3 chronic conditions ROS – 2 - 9 P/F/S - 1	Detailed 5 - 7 body areas/organ systems
Level 5 99215	Severe exacerbation Unstable – poses a threat to life Abrupt change in neuro status	HPI – Extended 4 + elements <b>OR</b> status of 3 chronic conditions ROS – 10 + P/F/S - 2	Comprehensive 8 + organ systems

2 of 3 components must be met

### New Patients/Consultations

	Medical Decision Making	History	Exam
Level 1 99201 99241/9925 1	1 chronic problem – stable <b>OR</b> 1 self limited or minor problem No intervention required	HPI – Brief 1-3 elements ROS – 0 P/F/S - 0	Focused 1 body area/organ system
Level 2 99202 99242/9925 2	1 chronic problem – stable <b>OR</b> 1 self limited or minor problem intervention No intervention required	HPI – Brief 1-3 elements ROS – 1 P/F/S - 0	Expanded 2 – 4 body areas/organ systems
Level 3 99203 99243/9925 3	1 chronic problem– stable <b>OR</b> 2 self limited/ minor problems <b>OR</b> Acute, uncomp illness/injury Simple/SF intervention required	HPI – Extended 4 + elements <b>OR</b> status of 3 chronic conditions ROS – 2 - 9 P/F/S - 1	Detailed 5 - 7 body areas/organ systems
Level 4 99204 99244/9925 4	2 or more chronic problems <b>OR</b> New problem w/ Rx management or uncertain diagnosis; acute complicated injury Mild exacerbation of a problem	HPI – Extended 4 + elements <b>OR</b> status of 3 chronic conditions ROS – 10 + P/F/S - 3	Comprehensive 8 + organ systems
Level 5 99205 99245/9925 5	Severe exacerbation Unstable – poses a threat to life Abrupt change in neuro status	HPI – Extended 4 + elements <b>OR</b> status of 3 chronic conditions ROS – 10 + P/F/S - 3	Comprehensive 8 + organ systems

3 of 3 components must be met

Georgia Chapter, American Academy of Pediatrics

**Initial Hospital Visits**

	Medical Decision Making	History	Exam
Level 1 99221	1 chronic problem– stable <b>OR</b> 2 self limited or minor problems Acute uncomp illness/injury Simple/SF intervention required	HPI – Extended 4 + elements <b>OR</b> status of 3 chronic conditions ROS – 2 - 9 P/F/S - 1	Detailed 5 - 7 body areas/organ systems
Level 2 99222	2 or more chronic problems <b>OR</b> New problem w/ Rx management or uncertain diagnosis; acute complicated injury Mild exacerbation of a problem	HPI – Extended 4 + elements <b>OR</b> status of 3 chronic conditions ROS – 10 + P/F/S - 3	Comprehensive 8 + organ systems
Level 3 99223	Severe exacerbation Unstable – poses a threat to life Abrupt change in neuro status	HPI – Extended 4 + elements <b>OR</b> status of 3 chronic conditions ROS – 10 + P/F/S - 3	Comprehensive 8 + organ systems

3 of 3 components must be met

**Subsequent Hospital Visits**

	Medical Decision Making	History	Exam
Level 1 99231	1 chronic problem– stable <b>OR</b> 1 - 2 self limited or minor problems Acute uncomp illness/injury Simple/SF intervention required	HPI – Brief 1-3 elements ROS – 0 P/F/S - 0	Focused 1 body area/organ system
Level 2 99232	2 or more chronic problems <b>OR</b> New problem w/ Rx management or uncertain diagnosis; acute complicated injury Mild exacerbation of a problem	HPI – Brief 1-3 elements ROS – 1 P/F/S - 0	Expanded 2 – 4 body areas/organ systems
Level 3 99233	Severe exacerbation Unstable – poses a threat to life Abrupt change in neuro status	HPI – Extended 4 + elements <b>OR</b> status of 3 chronic conditions ROS – 2 - 9 P/F/S - 1	Detailed 5 - 7 body areas/organ systems
